

# Maple B/BB

Maple-faced, mixed hardwood core plywood ideal for interior lining applications. The reinforced Maple B/BB comes pre-finished with a UV Varnish and is ready to be installed without the hassle of additional finishing.

## KEY FEATURES

- Multipurpose, high strength panel.
- Stable, uniform and easily machinable.

## DIMENSIONS

2440 x 1220 - 12mm.

## SCOPE OF USE

Wall and ceiling lining.

## LIMITATIONS ON USE

For interior use only.

## COLOUR CONSISTENCY

It is not possible to guarantee an absolute consistency in colour of plywood between sheets. A variation between sheets cannot be considered a defect. Check sheets before commencing your project.

## EXPOSURE TO WATER AND SUNLIGHT

Direct or indirect light will have an effect on plywood products. A change in colour and appearance over time is a natural characteristic, and not considered a defect.

## TECHNICAL SPECIFICATIONS

Standard – EN 636-1

Wood Raw Material – Maple Face, Mixed Hardwood Core

Density – average 615kg/m<sup>3</sup>

Class – Hardwood, non-durable

Glue Bond – EN 636: Class 1 Interior

Emissions – EN 13986 : Class E1.

## HANDLING AND STORAGE

Plywood is a natural product that can be affected by changes in ambient weather conditions, causing previously flat sheets to bow or twist. All precautions are taken to minimise this effect, however once the plywood has left our warehouse we cannot guarantee sheets to remain flat.

Avoid leaning sheets against walls. Store sheets where construction traffic and construction activity will not damage sheets. Keep the surface free of contaminants such as dust, oil and adhesives that will affect the surface finishes.

The storage area should be protected from sun, rain and wind to minimise rapid changes in temperature and humidity. Treat sheets as a finished product and avoid dragging sheets across other surfaces.

Panels are always to be handled by two people.
